

LIAU LIBETOE

SOC Analyst · Cybersecurity Specialist · Computer Systems & Networks Engineer

+266 5665 6659 · conslibetoe@gmail.com · Maseru, Lesotho · libetoe.github.io/clibetoe · linkedin.com/in/liau-libetoe-107988185

PROFESSIONAL SUMMARY

Results-driven cybersecurity professional currently serving as SOC Analyst at the Central Bank of Lesotho -providing 24x7 security monitoring, threat detection, alert triage, and incident response within a regulated financial institution. Fortinet-certified, with demonstrated elite-level offensive and defensive capability: AfricaCERT CTF 2025 triple podium winner (1st Attack & Defense, 1st Social Engineering, 2nd Jeopardy). Holds 10+ verified certifications across cybersecurity, ethical hacking, SIEM, Active Directory, Windows Server, networking, AI, and cloud platforms. Final-year BEng candidate in Computer Systems and Networks at NUL, with a background in full-stack development, IoT systems integration, and IT infrastructure. Committed to protecting critical financial infrastructure and advancing CBL's SOC maturity.

PROFESSIONAL EXPERIENCE

SOC Analyst

March 2026 – Present

Central Bank of Lesotho (CBL) · Information Technology Division · Security Operations Centre

- Monitor 24x7 security events via SIEM, EDR, NDR, firewalls, switches, and routers to detect threats against the bank's digital infrastructure and financial systems.
- Perform alert triage, incident investigation, and root cause analysis -prioritizing events by severity (P1–P4) and escalating per defined IR playbooks.
- Execute the end-to-end incident response lifecycle per NIST SP 800-61: identification, containment, eradication, recovery, and post-incident reporting.
- Conduct threat hunting using MITRE ATT&CK TTPs aligned to the financial-sector threat landscape -proactively identifying threats that evade automated detection.
- Perform forensic log analysis across Windows, Linux, and network device telemetry; correlate Active Directory events with endpoint and network indicators.
- Support vulnerability assessment activities, participate in security drills and tabletop exercises, and contribute to playbook and detection-rule refinement.
- Collaborate with IT, network, and application teams on security assessments, hardening activities, and compensating-control implementation.

Systems Developer (Full Stack)

October 2023-2024

AgrTek (Pty) Ltd · Agricultural Technology · Roma, Maseru District, Lesotho

- Designed, developed, and maintained secure web applications using Laravel (PHP), Django, and Flask (Python), applying OWASP secure-development practices throughout.
- Developed IoT systems integrating machine learning algorithms with sensors for real-world agricultural automation - including a Bird Repellent System that earned competition recognition.
- Represented AgrTek IoT products at national and international initiatives: YALI (Youth African Leaders Initiative), STEAM (UNDP), and the Sebatatso Innovation Platform.
- Built and deployed commercial-grade websites and enterprise solutions for clients across the agriculture, energy, and education sectors.

Information Technology Technician

August 2018 – March 2019

Lerotholi Polytechnic · IT Support & Infrastructure · Maseru, Lesotho

- Network cabling, network device configuration (switches, routers), and infrastructure maintenance across campus facilities.
- Software installation, operating-systems management, and Active Directory user/group administration.
- Computer laboratory monitoring, including network configuration updates and software maintenance.
- Collaborated with senior developers to update the institutional website and implement new features.
- Delivered cybersecurity awareness training to Lesotho Mounted Police Service (LMPS) members.

EDUCATION

Bachelor of Engineering -Computer Systems and Networks

July 2026

National University of Lesotho (NUL) · Roma, Lesotho

Advanced Diploma in Computer Systems Engineering

July 2015 – September 2020

Lerotholi Polytechnic · Maseru, Lesotho

TECHNICAL SKILLS

SOC & SECURITY OPS	24x7 SIEM Monitoring · Alert Triage & IR · Threat Hunting (MITRE ATT&CK) · Detection-Rule Engineering · Intrusion Detection
SECURITY FRAMEWORKS	ISO/IEC 27001 · NIST CSF 2.0 · NIST SP 800-61 / 800-53 · CIS Controls v8 · MITRE ATT&CK
ETHICAL HACKING	Kali Linux · Penetration Testing (OWASP) · Evading IDS / Firewalls / Honeypots · Vulnerability Assessment · Social Engineering
NETWORKING	TCP/IP · DNS · HTTP/S · SMB · RDP · Fortinet FortiGate · IDS/IPS · NDR · Firewall Mgmt · VPN (Site-to-Site, Remote Access) · Wireshark / Packet Analysis
WINDOWS & AD	Active Directory · Kerberos / NTLM / GPO · Windows Server 2016/2019 · Event-Log Forensics · WSUS / Patch Management
LINUX	NDG Linux Essentials · Bash Scripting · Process & Network Forensics · Kali Linux Tools
PROGRAMMING	Python · PHP / Laravel · Java · C++ · JavaScript · MQL5 (Algorithmic Trading)
AI / ML / CLOUD	AWS ML Foundations · IBM AI Fundamentals · Google Cloud Gen AI · Machine Learning (IoT) · Data Science & Analysis
TOOLS & PLATFORMS	GitHub / GitKraken · Microsoft Office Suite · Wireshark · Laravel · Django · Flask · Prompt Engineering

CERTIFICATIONS & TRAINING (LINKEDIN-VERIFIED)

CYBERSECURITY -ETHICAL HACKING & SECURITY OPERATIONS	
Fortinet Certified Associate in Cybersecurity	Fortinet · Jun 2026
Ethical Hacking: Evading IDS, Firewalls, and Honeypots	LinkedIn Learning · Apr 2026
Kali Linux Essential Training	LinkedIn Learning · Apr 2026
Wireshark: Malware and Forensics	LinkedIn Learning · Apr 2026
The Cybersecurity Threat Landscape	LinkedIn Learning · Apr 2026
Certified Ethical Hacker (CEH)	LinkedIn Learning · Mar 2026
Cisco Ethical Hacker Cert Prep	Cisco Networking Academy · Oct 2025
Introduction to Cybersecurity	Cisco · Aug 2025
Cyber Security Essentials	Cisco Networking Academy · Jan 2019
SECURITY OPERATIONS -SIEM, INTRUSION DETECTION & INCIDENT RESPONSE	
Advanced Intrusion Detection for SOC Analysts	Infosec / LinkedIn Learning · Mar 2026
Introduction to Security Information and Event Management (SIEM)	LinkedIn Learning · Mar 2026
Cisco Network Security: Core Security Concepts	LinkedIn Learning · Apr 2026
CCNA Security	Cisco Networking Academy · Apr 2019

WINDOWS SERVER & ACTIVE DIRECTORY

Windows Server 2016: Install and Configure Active Directory	LinkedIn Learning · Mar 2026
Windows Server 2016: Manage, Monitor, and Maintain Servers	LinkedIn Learning · Mar 2026
Windows Server 2019: Remote Access Solutions	LinkedIn Learning · Mar 2026

ARTIFICIAL INTELLIGENCE, MACHINE LEARNING & DATA SCIENCE

Introduction to Generative AI with Google Cloud	Udacity · Aug 2025
Generative AI Fundamentals with Google Cloud	Udacity · Aug 2025
AWS Educate Machine Learning Foundations	Amazon Web Services (AWS) · Jul 2025
Artificial Intelligence Fundamentals	IBM · Aug 2025
Introduction to Modern AI	Cisco · Aug 2025
Introduction to Data Science	Cisco Networking Academy · Dec 2025
Datathon Training Participation	CSIR (Council for Scientific & Industrial Research) · Jun 2025

AWARDS & ACHIEVEMENTS

- ★ **1st Place -Attack & Defense, AfricaCERT CTF 2025.** Defended live infrastructure while executing real-time offensive operations under competition pressure.
- ★ **1st Place -Social Engineering, AfricaCERT CTF 2025.** Demonstrated expert-level human-layer threat identification and defense techniques.
- ★ **2nd Place -Jeopardy CTF, AfricaCERT CTF 2025.** Multi-discipline challenges spanning cryptography, digital forensics, web exploitation, and reverse engineering.
- ★ **TMC Hackathon 2026 Participant -IriusRisk (Jan 2026).** Applied structured STRIDE threat modeling to a complex distributed enterprise system.
- ★ **YALI Representative (Young African Leaders Initiative).** Represented AgrTek IoT products at YALI, STEAM (UNDP), and the Sebatatso Innovation Platform.
